

*Greyline Ultrasonic Level Instruments*

**EXTRA SENSOR CABLE  
(OPTION XC)**

Each Greyline level instrument includes 25 ft. (7.6 m) RG62AU coaxial cable. Additional RG62AU coaxial cable and Cable Junction Box (Option JB) may be ordered, or the cable may be spliced and extended up to 500 ft (152m) as required during installation. No adjustment is required when the sensor cable is extended or shortened. Use only RG62AU (or RG62U) coaxial cable which is available from Greyline Instruments or your local distributor. Nominal impedance of RG62AU cable is 93 ohms.

Extended sensor cable must be installed in metal conduit to prevent interference. Recommended installation with a metal junction box is illustrated below:

Note: Optional Watertight steel NEMA4 Junction Boxes with terminal strips (Option JB) are also available from Greyline Instruments.
