- ❑ Readily Reusable
- ❑ Plug & Play – Not Tools Required
- ❑ No Down Time
- ❑ Transparent or Red Pigmented Versions
- ❑ Resists Chemical Attack
- ❑ Quick installation | Under 2 min
- ❑ No Hazardous Disposal Costs

Quick Installation

Product Description

The LFS Series Safety Clam-Shields are made from Solid Polypropylene providing excellent chemical resistance

They are designed to 'Fit and Forget' quick and easy to assemble and install, just join the two halves of clamshell around the flange and snap in place.

The LFS series are reusable, do not tear or rip, do not require lacing, and provide your piping system with a safe and secure, means of preventing harmful 'Spray-Outs' without any down time.
