

Levelpro LDS-B Leak Detetion Sensor + Alarm

Levelpro LDS-B Series All-Plastic Battery Operated Leak Detection Sensor + Audible Alarm are designed to operate seamlessly in in-dustrial applications. The LDS-B series provides reliable Leak Detec-tion in and around secondary Containment Sumps, Tanks and piping systems. Media examples include HCL, Sulfuric Acid, H2O and Diesel. The NEMA 4X PVC liquid leak detection sensor can be mounted through the wall or within the interstitial space Applications: Level or Leak Detection Tanks- Sumps- Secondary Containment- Chemical Spills.

Technical Data

Supply	9 VDC replaceable battery
Output	Loud Alarm Speaker
Sensor	2 pes 316 electrode
Mounting	Can be used portable or connection to weight
Sampling	55/Sec
Sensor Material	PVC
Case/Dimension	PC 3.3" x 2.1" x 1.18 mm

Features

- ▶ Fully Submersible
- ▶ Easy to Install-No Wires Required
- ▶ Long life battery
- ▶ Can be connected to the alarm panel
- ▶ Reliable
- ▶ Corrosion Resistant
- ▶ Indoor/Outdoor Service
- ▶ 1 Year Battery Life.
