CO stick

The testo 317-3 CO monitor detects the presence of carbon monoxide (CO) in ambient air and warns the user both visually and audibly about dangerous CO concentrations during furnace and boiler service and maintenance, weatherization audits or home inspections.

Out of this world technology!

testo 317-3 features:

- 3 year warranty on CO cell
- Visual and audible alarm
- No zeroing required, just turn it on to measure
- Adjustable alarm threshold
- Self-test mode verifies CO sensor function anytime, anywhere without the need for test gas

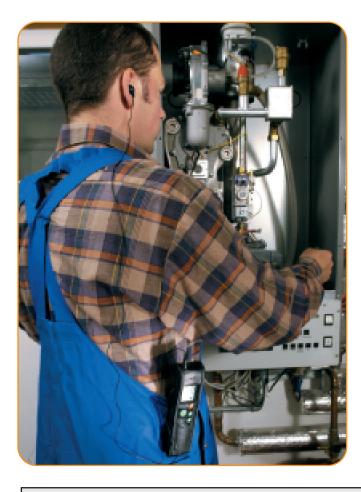

Ambient Carbon Monoxide Monitor With Adjustable Alarms

testo 317-3 specifications:

Description:	
Measuring range:	0 to +1,999 ppm CO
Resolution:	1 ppm
Accuracy:	±5 %
Reaction time (t 90):	40 seconds
Battery type:	2 Type AAA batteries
Operating temperature:	+23 to +113°F
Battery life:	150 hours (with alarm off)

Warranty:		
Instrument:	2 years	
CO sensor:	3 years	

Professional Kit Includes:

Part no. 0632 3173
